Weinaug Wins ASHRAE Technology Award for Busch Gardens 4D Theater Project

ORLANDO, Fla., February 18, 2005 – GRG Inc. is pleased to announce that William C. Weinaug, P.E., Executive Vice President at GRG, was recently named a recipient of the 2004 American Society of Heating, Refrigerating, and Air-Conditioning Engineers (ASHRAE) Technology Award for his work on the Busch Gardens Tampa 4D Theater project.

The annual ASHRAE Technology Awards are the air conditioning and refrigeration industry's most prestigious honor for efficient use in buildings and environmental system performance.

Weinaug served as GRG's Principal-In-Charge for the Busch Gardens Tampa 4D Theater project. GRG provided the mechanical engineering design which involved a renovation of an existing outdoor theater. The renovation project expanded the existing roof and added new walls to the enclosed theater. Energy efficiency, indoor air quality, innovation, and operation and maintenance were the four main criteria the projects were judged on.

ASHRAE, founded in 1894, is an international organization of 55,000 persons. Its sole objective is to advance through research, standards writing, publishing and continuing education the arts and sciences of heating, ventilation, air conditioning and refrigeration to serve the evolving needs of the public.

GRG Inc. is one of the strongest, most experienced MEP firms in the United States with a staff of 130 individuals, licensed in 30 states, with offices in Orlando, Fla., Las Vegas and Reno, Nev. GRG specializes in the hospitality, entertainment, healthcare, science, condominium, and casino market sectors. Services include mechanical, electrical, plumbing, fire protection, special building systems, commissioning, owner representation, and lab planning.
